Vehicle MG	16"/40cm	3	2	6	ROF 1 if other weapons fire.
.50 cal Vehicle MG	16"/40cm	3	4	5+	ROF 1 if other weapons fire.

SPECIAL RULES

Intelligence & Recon Platoon - p.248

Intelligence & Recon Platoons are Reconnaissance Platoons.

Machine-gun Platoon - p.246

Machine-gun Platoons may make Combat Attachments to Combat Platoons.

Self-Propelled Anti-Tank Platoon - p.256

At the start of the game before deployment you may choose to either:

- deploy your Tank Destroyer Section as normal at the start of the game, leaving the Security Section off table for the whole game, or
- deploy only the Security Section, holding the Tank Destroyer Section off the table ready to be placed later using the Tank Destroyer Section rule.

If the Platoon Command team of the Security Section is Destroyed, immediately select another team of the Security Section that is within Command Distance of it as the new Platoon Command team. If there are no other teams within Command Distance, the Command team is Destroyed and not replaced.

If all of the Recon Jeep teams of the Security Section are Destroyed, mark the location of the Platoon Command team when it was Destroyed. The Tank Destroyer Section must be placed in the player's next turn as if the Platoon Command team were still where it was when it was Destroyed.

Place the Tank Destroyer Section on the table at the start of any of your turns when Ambushes are revealed so that every team in the Tank Destroyer Section is:

- within Command Distance of a team from the Security Section, and
- In Command when the Security Section is removed.

In addition, each team must not be

- within 16"/40cm of any enemy team within Line of Sight, unless Concealed by Terrain from it, or
- within 4"/10cm of any enemy team, or
- within 8"/20cm of any enemy Recce team that is in Line of Sight (apart from Recce teams that are Bugged Down, Bailed Out, or moved at the Double).

Once the Tank Destroyer Section is placed, the Security Section is permanently removed from the table. The Tank Destroyer Section can move and fight as normal during the turn it appears. However, if, when the Tank Destroyer Section is placed, any teams in the Security Section Moved At the Double in their previous turn or are Reorganising, all teams from Tank Destroyer Section are Reorganising when they are placed, unless they are within Command Distance of a Security Section team that is not Reorganising, did not Move At the Double, and is from the same platoon. In addition, if the Security Section has no Command team when the Tank Destroyer Section is placed, the entire Tank Destroyer Section must Reorganise when they are placed.

When it takes Platoon Morale Checks, the Tank Destroyer Section ignores any teams from the Security Section that were Destroyed.

Teams from a Self-propelled Anti-tank Platoon, Tank Destroyer Platoon, or Towed Tank Destroyer Platoon use the Cautious Movement and Disengage rules, and have the 3+ save for unarmoured Jeep teams, as if they were Recce teams.
